ALWAYS COOLER

THE NEW WATER AND JUICE DISPENSER. PREMIUM, EASY, TECHNOLOGICAL AND VERSATILE IN DESIGN. IN ONE WORD: COOL.

Many good and refreshing possibilities. When water mixes with taste.

Apart from water, Blujuice can dispense 3 different fruit juices, portioned for cup or pitcher. Concentrated juices can be mixed with cool still or chilled sparkling water, according to your taste requirements.

Blujice is efficient and elegant, making it the ideal choice for breakfast buffets but also perfect for the office.

Blujice provides cold still and sparkling water, as well as water-based non-alcoholic beverages, all from a single dispensing point. Beverage concentrates, contained in a "bag in box" or "tank", mix with your preferred water, allowing you to easily create customized drinks, satisfying every taste.

The IoT technology of Blujice, actionable via license, allows you to remotely monitor the Stop and Restart functions, the measurement of dispensed litres, the consumption of concentrates, CO<sub>2</sub> gas usage and the depletion of UV lamps and additional alarms.

Flat and elegant control panel: great design and easy access to ensure quick cleaning and the maximum of hygiene, thanks to touch controls.

### Natural Gas

An environmentally-friendly choice, with the benefit of a more silent compressor.

In satin stainless steel and white tempered glass: elegant and minimal looking, perfect in every location. Smart installation: easy and rapid.

The delivery area is illuminated and 27 cm high, allowing the insertion of bottles and flasks.

Drip tray with drain.

## OPTIONAL EXTRAS

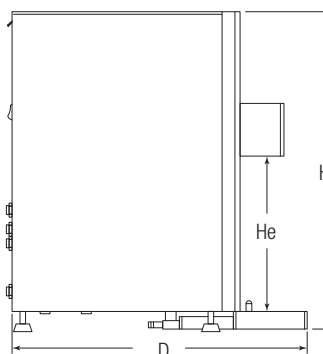

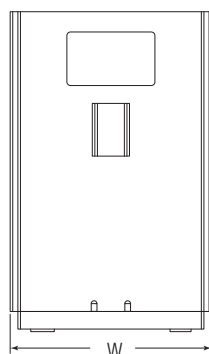

In-line filters	Filter + Head	Water pressure reducer
	UVC Led In	CO <sub>2</sub> pressure reducer with 2 pressure gauges (only for Fizz models)
Outlet filters	UVC Led OUT	Incremental digital litre-counter 6000R
	or Nano Silver Pipe	Decremental digital litre-counter 8000T
Other	Bluprotection	Blujuice Cabinet It can contain 3 Bag-in-Box

## TECHNICAL PROFILE

## BLUJUICE

Cooling capacity	45 (Lt/h.)
Temperature of cold water*	5° - 12° C
Cooling technology	Dry Cooling
Cold water coil	Stainless steel AISI 316
Syrup pump	Peristaltic pump 30 Lt/h. 24 V DC
Cooling	Forced ventilation
Adjustable thermostat	Yes
Refrigerant gas	HC R290
Professional carbonation pump	Membrane
Power supply	230 V - 50 Hz
Power consumption	390 W
Max. absorption	1,9 A
Ambient cooling temperature	Min 16°C - Max 32°C
Materials	Stainless steel and tempered glass

\* stimato a una temp. ambiente di 25°C e temp. dell'acqua in entrata di 20°C
